---

### Professional Summary

Software Engineer (Backend & Mobile) with a 5-year Informatics Engineering degree. Built banking systems at the National Islamic Bank: Laravel microservices, React/Filament admin, and Flutter integrations. Strong with Laravel, RESTful APIs, SQL Server, JWT, caching, and CI/CD. Delivered secure payment integrations (Fatora, Sham Cash), CDM deposit API, and shareholder e-voting.

---

### Education

**B.Eng. in Informatics Engineering**  
University of Damascus

Sep 2018 - Jun 2025

---

### Experience

#### **Software Engineer — National Islamic Bank (Jun 2024 – Jul 2025)**

- Delivered Laravel microservices with Filament admin; integrated React & Flutter apps.
- Integrated payment gateways (Fatora, Sham Cash): webhooks, reconciliation, error handling.
- Built CDM API with full audit logs; launched shareholder e-voting (share-weighted ballots, quorum, reports).
- Impact: reduced API response **time by 35% by optimizing** Eloquent/Laravel queries; reduced database **load by 20% through caching**; reduced deployment **time by 40% using CI/CD**; increased user **engagement by 25% after UI** performance optimization; reduced job **time by 15% by optimizing** schedulers; **handling 100+ concurrent logins** (≈500 concurrent requests in sandbox).

**Top Skills:** Laravel | PHP | Filament | React.js | Flutter (Dart) | REST APIs | Microservices | SQL Server/MySQL | Redis | JWT | Docker | CI/CD | Git/GitHub

---

### Projects

#### **Watani One — National Islamic Bank (Syria | On-site)**

Banking app with Laravel microservices (backend), Flutter (mobile), and Filament (admin).

- Built secure REST services and role-based dashboard; integrated maps and QR features.
- Shipped a unified experience across mobile & web with CI/CD.
- Stack: Laravel, PHP, Flutter (Dart), Filament, REST APIs, Microservices, JWT, CI/CD.

#### **Digital Account Opening — National Islamic Bank (Syria | On-site)**

Multi-step account opening flow with Laravel backend, React.js front-end, and Filament admin.

- Implemented validation, auditing, and admin workflows for review/approval.
- Stack: Laravel, React.js, Filament, REST APIs, JWT, CI/CD.

### **Card Management Platform — National Islamic Bank (Syria | On-site)**

Tool to manage bank cards, track ATM availability in real-time, and request new cards.

- Delivered interactive map views and status monitoring dashboards.  
Stack: Laravel, React.js, REST APIs, Maps SDK, CI/CD.

### **Kwicky App (Jordan | Freelance)**

Delivery & shipment tracking app: Flutter mobile, Laravel backend, Filament dashboard.

- Added interactive maps, socket support, and real-time notifications.  
Stack: Flutter (Dart), Laravel, Filament, Sockets/WebSocket, Firebase/FCM, REST APIs.

### **HADERINE (Syria)**

On-demand services marketplace connecting customers with nearby providers.

- Backend in Laravel (RBAC, orders, chat/calls); React.js dashboard; Flutter mobile app.
- Stack: Laravel, MySQL, React.js, Flutter, REST APIs, JWT.

### **MedTeam (Syria | Freelance)**

Medical learning app for lectures & study materials.

- Flutter app with interactive UI; Laravel + Filament CMS; UX designed in Figma.
- Stack: Flutter, Laravel, Filament, Firebase (as needed), Figma.

---

## **Language**

Arabic (Native) | English (Fluent)

---

## **Skills**

**Backend:** C#, Core, Laravel, RESTful Web APIs, Microservices, MVC

**Databases:** SQL Server, Redis (caching), MySQL

**Frontend/Mobile:** React.js, Flutter (Dart), Filament, HTML/CSS/JS

**DevOps:** Git, GitHub, GitHub Actions, Docker, CI/CD

**Quality & Security:** Swagger/OpenAPI, Unit/Integration Testing, JWT,

**Banking:** Payment Gateway Integration, Webhooks, Reconciliation, CDM, E-voting

## **Soft Skills**

- Communication Skills (Written & Verbal)
- Collaboration & Teamwork
- Problem Solving
- Time Management
- Adaptability
- Attention to Detail
- Ownership & Accountability
